In March 2018, QGJEUNE is launched. With this platform, UNFPA is committed to trust young people to develop solutions to their problems in the area of sexual and reproductive health. From then on, and thanks to the support of the Burkina Faso Government and that of the Kingdom of Belgium, QGJEUNE was therefore conceived and designed around youth, with young people and for young people.

We invite you, through a series of documentaries, to dive into the QGJEUNE universe, as it was thought and how it works.
